

Residential Deep Cleaning Checklist

🧽 Deep Residential Clean – A more detailed reset for lived-in homes. We tackle buildup, under furniture, and inside appliances.

Everything included in a standard clean, as well as the things on this list!

- Vacuum & Mop under all furniture (under 40lbs)
- Every surface of appliances should be cleaned and the inside detailed and sanitized (toasters dumped out and cleaned, inside and outside of dishwasher, stove, microwave, washer, dryer, etc.) We DO NOT clean inside fridges & freezers unless requested for additional \$40, and no excess build up of ice.
- All decorations and knickknacks should be wiped down and placed back
- Vacuum couch in depth (until all hair is gone)
- All ceiling fans, light fixtures, and lamps should be thoroughly wiped down and dusted (as long as they can be reached with a step ladder & extension duster)
- Use the flat mop or rag to wipe down/dust crown molding, wall corners, floor molding, door frames, and baseboards
- Wipe down air vents
- Move and shake out any rugs, vacuum and mop underneath
- Wipe down all windows, clean inside the tracks, as well as the frame and lock, and wipe down the windowsills
- Clean interior & exterior of cabinets & cabinet doors (homeowners must take items out of cabinets before arrival if they want it to be thorough, cleaners will return items to the best of their ability)
- Wipe down both sides of all doors
- Clean/dust all areas where cobwebs settle (like corners, on top of lamps, etc.)
- Clean and sanitize inside and outside of trash cans
